

Grand Vic Elgin Wins Again With Synectics

“We are proud and excited to be working with such a successful and professional organization”

John Katnic,

Vice President and Chief Operating Officer of Synectics North America.

November 2007

Synectic Systems, Inc. (Synectics), global manufacturer of digital recording systems, industrial cameras, analogue switchers, and award-winning command and control Synergy™ software has been selected by Grand Victoria Casino and Resorts to provide an integrated digital recording surveillance solution for their gaming property in Elgin, Illinois.

The Grand Victoria Elgin Casino, located on the scenic Fox River, is Illinois' most profitable gaming facility and features over 1,000 slot machines and a wide variety of table games that include Blackjack, Roulette, Caribbean Stud Poker, Three Card Poker, Craps, and Baccarat. Voted Chicagoland's

“Best Casino” for two consecutive years by readers of Casino Player magazine, Grand Vic Elgin provides award-winning casino excitement to match its new award-winning digital surveillance system powered by Synergy, the digital heart of Synectics' security solution. “We are proud and excited to be working with such a successful and professional organization,” says John Katnic, Vice President and Chief Operating Officer of Synectics North America.

Grand Victoria's surveillance team evaluated leading DVR systems, for nearly two years and eventually chose Synectics based on its superior

user interface, command and control capabilities, and stellar reputation from over 20 years in engineering, manufacturing, and maintaining highly reliable surveillance systems. Through Synectics' Synergy, 500+ Grand Vic cameras will be recorded, monitored and controlled in conjunction with dual Pelco matrices, and wholly integrated with the casino's point of sale (POS) and slot management systems. Video footage can be instantaneously retrieved based on user-defined searches of point of sale (POS) and/or slot data such as transaction or jackpot size, thus increasing operator efficiency and recording value.

Synectics designs integrated end-to-end surveillance control systems for the world's most demanding security environments. We excel at complex projects that require innovative tailored solutions with high reliability and flexibility, specifically for casinos, oil and gas, marine, public space, banking, transport and critical infrastructure applications.

With over 25 years of high security systems experience, field proven products, and expert support personnel in the UK, US, Europe, UAE and Singapore, Synectics offers its clients turnkey networked solutions for comprehensive protection and peace of mind.

Synectics is part of Synectics plc, a global leader in advanced surveillance, security and integration technologies and services.
