

Paragon Casino Resort Selects Synectics for Enhanced Security and Surveillance Efficiency

“We chose the Synectics surveillance solution because it significantly improves our monitoring capabilities, which translates into an extended return on investment.”

Terryl Pierite

Surveillance Director Paragon Casino Resort

April 2007

Synectic Systems, Inc. (Synectics), global provider of enterprise class digital video recording, CCTV matrix switching and control, and award-winning command and control software products, has been selected by the Tunica-Biloxi Tribe of Louisiana’s Paragon Casino Resort to provide an integrated digital video surveillance solution for their newly expanded resort and gaming facility.

The Synectics solution combines superior video quality, accessibility and reliability essential to gaming operators, to deliver a proactive security management tool that will be fully

integrated with Paragon’s point of sale and access control systems. Synectics’ Synergy user interface has been selected to monitor, record and control over a thousand cameras and to integrate the surveillance system with other third party alarm systems.

Terryl Pierite, Surveillance Director for Paragon Casino Resort commented, “We chose the Synectics surveillance solution because it significantly improves our monitoring capabilities, which translates into an extended return on investment. The new solution enables our security and operational personnel

to anticipate, detect and respond to every incident with enhanced efficiency. Synectics’ capabilities for multiple site monitoring; automatic alarm management and advanced digital video transmission will greatly contribute to Paragon’s safe and successful gaming operations.”

“Synectics has filled a unique niche in the growing gaming industry by consistently supplying clients with customized solutions for their unique needs,” states John Katnic, Vice President and Chief Operating Officer of Synectics in the U.S. “In Paragon’s.

(continued on other side)

case, we were able to seamlessly integrate our state-of-the-art digital recording system with the client's existing analogue matrix switch, point-of-sale system and new access control system. We are delighted that Paragon has chosen Synectics, and joined our growing family of satisfied North American gaming clients."

About Paragon Casino Resort

Paragon Casino Resort is a gaming entertainment destination that offers patrons a rich "escape" experience close to home. Located in south central Louisiana, Paragon has invested millions in new construction, has more amenities, an attractive mix of games and genuine, friendly service dedicated to the local Louisiana population. Louisiana's first land based casino offers all the excitement of Las Vegas gaming in a dazzling state-of-the-art resort facility. Over 2,100 slot machines, forty-six gaming tables, and a dedicated poker room round out the casino.

Synectics designs integrated end-to-end surveillance control systems for the world's most demanding security environments. We excel at complex projects that require innovative tailored solutions with high reliability and flexibility, specifically for casinos, oil and gas, marine, public space, banking, transport and critical infrastructure applications.

With over 25 years of high security systems experience, field proven products, and expert support personnel in the UK, US, Europe, UAE and Singapore, Synectics offers its clients turnkey networked solutions for comprehensive protection and peace of mind.

Synectics is part of Synectics plc, a global leader in advanced surveillance, security and integration technologies and services.
