

Sandia Resort and Casino Selects Synectics for New State-of-the-Art Surveillance Solution

“We are delighted to be working with the Pueblo of Sandia...one of the most beautiful and successful gaming destinations in the Southwest.”

John Katnic

Vice President and Chief Operating Officer for Synectics

February 2010

Synectic Systems, Inc. (Synectics), a leading developer and manufacturer of enterprise-class digital recording solutions, announced today that it has been selected by the Sandia Resort and Casino in Albuquerque, New Mexico to provide a custom surveillance system to replace the casino's existing digital system. Powered by the company's award winning Synergy™ video management software and best of breed hardware, the new system at Sandia will be the largest all-IP Synectics system installed in North America. Sandia Resort and Casino is a premiere destination featuring 160,000 square feet of gaming

space with over 2,000 slots and 52 table and poker games.

John Katnic, Vice President and Chief Operating Officer for Synectics North American division stated, “We are delighted to be working with the Pueblo of Sandia who operates the Sandia Resort and Casino, one of the most beautiful and successful gaming destinations in the Southwest. This pure IP solution, showcasing state-of-the-art recording, monitoring, transmission, integration and command control technologies, will be the most advanced in the gaming industry.”

The new system will record over 1,500 IP streams, using a combination of high definition and IP cameras. Working with integrator/installer Technical Security Integration (TSI), Synectics participated in an extensive product evaluation process with the Pueblo of Sandia, which included head-to-head comparisons with competing systems and site visits to existing Synectics installations. Synectics was ultimately selected by the Pueblo of Sandia Tribal Council based on the system's ease-of-use, open architecture, comprehensive feature set, and industry leading five-year warranty.

Synectics designs integrated end-to-end surveillance control systems for the world's most demanding security environments. We excel at complex projects that require innovative tailored solutions with high reliability and flexibility, specifically for casinos, oil and gas, marine, public space, banking, transport and critical infrastructure applications.

With over 25 years of high security systems experience, field proven products, and expert support personnel in the UK, US, Europe, UAE and Singapore, Synectics offers its clients turnkey networked solutions for comprehensive protection and peace of mind.

Synectics is part of Synectics plc, a global leader in advanced surveillance, security and integration technologies and services.
