**About Synectic Systems, Inc.**

Synectic Systems, Inc. (Synectics), a wholly owned subsidiary of UK-based Quadnetics Group Plc, is an engineering, integration and manufacturing company with expertise in IT and networked systems, CCTV control systems, enterprise DVR and command control software applications. Quadnetics is listed on the Alternative Investment Market (AIM) of the London Stock Exchange.

Synectics' unparalleled ability to deploy custom digital surveillance solutions that integrate with existing legacy systems and future technologies has established them as a market leader in the Middle East, the UK, Europe and North America.

## Synectics Industrial Systems secures further DMSE LNG Ships

**SHEFFIELD, UK – September 8, 2007** – Adverse environment CCTV specialist, Synectics Industrial Systems, has been awarded another large-scale contract by Daewoo Shipbuilding and Marine Engineering to supply their specialist (Hull Number 2268 and Hull Number 2278).

H2268 will be owned by Taiwan Marine and operated by Bluesky LNG with delivery expected in 2010. H2278 is still awaiting confirmation.

The CCTV provided will include Synectics industry standard EExd certified COEX FECH2 PTZ camera stations to monitor the deck areas of each ship. The COEX MECH4 PTZ camera stations will also be employed to provide operators with an unparalleled and unencumbered view of both port and starboard sides due to its wash/wipe facility

Synectics Industrial Systems will also provide audio and visual monitoring equipment to each ships' engine room. This will allow staff to monitor the power unit and detect and resolve any occurring issues quickly, to minimise any resulting downtime for the high-cost vessels.

Synectics Industrial Systems has a close and successful relationship with DSME which we hope will continue for many years to come.
